WHO ARE WE

Since our incorporation in 2015, ORYX Aviation Services has been delivering aviation compliance services throughout the GCC guided by our vision of “Doing Things Right.” Over the years, we have provided world-class solutions to clients both locally and internationally, establishing ourselves as leaders not only in the region but also on the global stage in helideck and helipad compliance.

Specializing in helideck, helipad, and Vertiport certification, we have successfully executed a wide range of projects spanning the offshore oil and gas sector as well as onshore commercial aviation. By bringing together aviation expertise from around the world, ORYX combines over 50 years of collective experience to provide exceptional compliance services in the UAE and beyond.

WHAT SETS US APART

Expertise: Our team of highly experienced Helideck and Helipad Inspectors, rigorously trained by ORYX Aviation Services LLC-SPC and supported by extensive field experience and professional certifications, brings exceptional expertise to the landing site certification process. This ensures our clients receive precise, thorough, and fully compliant assessments of the highest standard.

Tailored Solutions: We recognise that every helideck and helipad presents its own distinct operational and structural considerations. Accordingly, our certification programmes are carefully tailored to meet the specific requirements and challenges of each client, delivering a clear, structured pathway to achieving and maintaining the highest standards of landing site safety.

Compliance Assurance: Navigating the complex regulatory landscape can be challenging. We streamline this process by offering clear guidance and expert support, enabling our clients to not only meet but exceed all compliance standards with confidence.

WHY CHOOSE ORYX

Reliability: Our certifications are a mark of reliability and trust, recognised globally.

Timeliness: We recognise that time is critical in business. Our streamlined certification process delivers results promptly, minimising operational disruptions and keeping your projects on schedule.

Continuous Support: Our commitment extends beyond certification. We offer continuous support to help organisations sustain and enhance the safety and compliance of their landing sites over time.
